Dear Customer:

Since the last time we published a price list, our company has undergone tremendous growth. We have, in fact, become *thr*ee companies.

In addition to Steve Ivy Rare Coin Co., we now have Sir Coin International and World Gold Trading Company as sister firms.

Sir Coin International deals in rare foreign coins, with emphasis on European coins and rare foreign gold coins. This company is headed by David Cannon, who has dealt in foreign coins for ten years. Questions or correspondence concerning foreign coins should be personally directed to Mr. Cannon.

World Gold Trading Company (WGT), is managed by Charles Clifford, and trades daily in all low-premium bullion-type coins. If you desire to own gold, please call Mr. Clifford for competitive, up-to-the-minute quotes.

In this catalog, our first in some time, all coins shown are currently in stock. We will appreciate your comments concerning the catalog.

The coin market in general has been strong the past few months. Although the economy has slowed, this slowdown hasn't been reflected in the rare coin business.

We feel, as interest rates decline, investments in savings and short term paper may find their way into other type investments, including coins. So, it may prove wise to take advantage of the stable coin market at this time, rather than waiting for the usually hectic "late fall, early winter" market which seems to affect the coin market each year.

At this time we would like to say "thank you" to the customers who have made it possible for our company to succeed and, we venture to say we have as many satisfied customers as any coin dealer in the nation!

The numerous grades and prices of coins offered by various dealers are quite confusing and we have no intention of confusing you further by trying to explain them in this catalog. We say simply this: dollar for dollar, our customers receive the best in the coin business. Sir Coin *is* a gentleman you can trust!

Sincerely,

Steve

ANNOUNCES:

Sir Coin Numismatic Investment Program

(An Uncomplicated Plan For Rare Coin Investors)

A MONTHLY INVESTMENT PROGRAM ESPECIALLY DESIGNED FOR THE KNOWLEDGABLE RARE COIN INVESTOR.

Steve Ivy Coin Co. has built substantial investment portfolios for a number of its top clients. Due to the thought and effort put forth by our staff, these portfolios have far outpaced the already strong market.

Other investors have requested that we develop a program for them so that they too can benefit from our experience and expertise in the dynamic field of rare coins.

Our staff consists of some of the most knowledgeable numismatic and business people found in the rare coin field today. We want to use this knowledge to help you build a portfolio which will bring you both pleasure and profit. We are confident that we offer the most professional numismatic investment service available in the world.

AN EVALUATION OF THE CURRENT RARE COIN MARKET

The uninterrupted price advance of truly rare coins recorded in the last 20 years can be attributed to a basic fact of economics: the law of supply and demand. The supply of rare coins is fixed and in some instances it is decreasing due to certain issues being laid aside in private collections. Congruently, the demand for rare coins has been rising because of an increase of serious rare coin collectors at an estimated annual rate of 2% to 3%. The fixed or diminishing supply coupled with the rising demand has led to a steady increase in the value of rare coins.

The mid-1970's is experiencing one of the strongest growth periods of new collectors in the history of the hobby. This has been fostered by the growing world interest in gold and silver, U.S. Government publicity concerning their silver dollar sale, and attention given to rare coins by the major business publications.

These forces are still present and are being aided and strengthened by an increasing awareness of American history as we approach this country's 200th Anniversary in 1976. Consequently, numismatics is now adding serious collectors at the rate of 7% to 9% a year. Of equal importance is the fact that most of the new collectors are from the more affluent sectors of American society. This injection of new money has stimulated the market to even higher levels.

Our research of the present market indicates that the increased demand for rare coins has yet to find a point of equilibrium and prices are lagging behind. In practical terms, this means that if no new collectors entered the rare coin field, the values of rare coins would continue to advance for another 6 to 12 months before stabilizing. The chances of such a situation is negligible and, therefore, we believe the long term trends point strongly upwards.

DIVERSIFY YOUR PORTFOLIO

Diversification is a method of investing through several different investment vehicles so that the best overall appreciation of a given portfolio can be realized and still protect the initial investment. Some investors use oil and gas leases, stock, bonds or real estate to diversify. We are not asking you to invest *all* your money in rare coins because to do so would negate the principle of diversification. We are seeking the opportunity to put a *portion* of your investment dollar into rare coins and prove ourselves to you. Remember, our success is keyed to your satisfaction . . . and profit.

THE SIR COIN INVESTMENT PROPOSAL

The program is simple. You may invest as little as $50 a month to as much as $20,000.00 a month.

You tell us approximately how much you wish to invest monthly and we will go into the market and purchase for you those items which our research indicates have top investment potential. In fact, we are constantly looking for investment quality material for our clients' portfolios.

The coins are then shipped to you on *approval* for your inspection. You pay nothing until you have the coins in hand. If you agree with us that the package contains choice coins reasonably priced, send us your check. Should you be unhappy for any reason, you have seven days to return the coins.

The prices we charge you are the same prices we would charge collectors. This assures you of a fair price, whereas you may not know the market price, *collectors do*. Our prices are based upon constant contact with the rare coin market via advertising, attendance at major auctions and coin shows, and our two intra-dealer teletype systems connecting us with 250 of the country's largest dealers in rare coins.

Your selling price is also determined by the market. When you decide it is time to sell, we will offer you our top buy price to obtain them. To assure you that our price is the top price, you are under no obligation to sell back to us. You can sell to any of the 10,000 plus coin dealers in this country who will compete to obtain the choice and rare coins which we place in your portfolio.

Should you wish to participate in your coin selection, we will be happy to work with you. If we feel that those coins in which you are interested are not of prime investment quality, it is our obligation to inform you. If at that point you will desire the coins, we will gladly acquire them for you.

OUR CREDENTIALS

Steve Ivy Rare Coin Co., is the Southwest's largest dealer in rare coins. Our expertise is known and respected throughout the numismatic community.

1803 GEM BU, This is probably the most underrated type coin. Out of all the Draped Bust series, cents thru dollars, this is far and away the most difficult to obtain. With many Draped Bust dollars bringing well in excess of $12,000 and the quarters and halves bringing high 4 figure prices, we feel this coin should prove to be a wise investment. The coin has razor sharp detail and is beautifully toned. It might also be noted that the 1803 is a very scarce date and is seen much less often than the 1800 ..... 8,250.00

1848-CAL PROOF, This coin is quite popular because it is both a regular issue coin and a territorial coin. Approximately 1,389 of these coins were struck with the letters CAL. stamped on the reverse. The Redbook list 2 proofs known but we feel that there are probably several more known. This particular coin was cleaned at one time but still is very attractive. Not quite as nice as the Delp coin but priced at $8,000 less than what a BU coin sold for at the A.N.A. 29,000.00

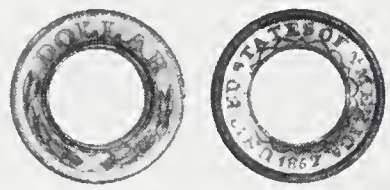
Patterns

J-52, XF, Billon, R-6, 1836 2 Cent. Eagle similar to pre-1800 U.S. Coinage design for **350.00**

J-67, GEM PROOF, Gold R-6, 1836 dollar. Dies aligned normally and not upright, which differentiates this coin from the less valuable J-68, a gold and silver alloy coin. One of the very few collectable gold patterns in gold. Most specimens known are impaired or lightly circulated. Obverse design has a radiated liberty cap with liberty on the band. Reverse has "I.D." encircled in palm branch. It was not until 13 years later that the U.S. adopted the gold dollar. An important coin, numismatically and historically **8500.00**
J-120, Ch. BU, Billon, R-6, 1850 one cent. The unperforated re-strike. Silver plated at the mint **395.00**
J-127, GEM BU, Billon, R-6, 1851 Cent. The significance of the Billon, which is one tenth silver, can be understood with the striking of this coin. This is a ring coin, and has one cent of silver value. "Cent-One Tenth Silver" inscribed on reverse. Interesting coin **425.00**



J-145, GEM PROOF, Gold, R-7, 1852 Gold Dollar. One of only two ring dollars in gold that are collectable. This is by far the most ornate and beautiful of the ring dollars. This coin was proposed because the regular issue gold dollars were "too small" and the silver coins were disappearing, because the bullion value was greater than face. By reducing the silver content in 1853, the Government solved most of the problem. A unique part of our history, and immensely desirable **11,750.00**
J-148, GEM BU, Copper-Nickel, R-7, 1852 Gold Dollar. As above, but in copper-nickel instead of gold. Mellowed toning to a gorgeous red brown **1700.00**
J-160, Ch. PROOF, copper, R-4 1854 one cent. Resembles the regular issue, but obverse field is plain, reverse has smaller wreath **425.00**
J-235, Ch. PROOF, Silver R-4, 1859 Half Dollar. The Pacquet design, and rarer than the R-4 rating **600.00**
J-267, GEM PROOF, silver R-4, 1860 Half Dime. The transitional pattern. Obverse is regular die of 1859, but dated 1860. The reverse is the regular die of 1860. Well known as "The Coin Without a Country" as "United States of America" does not appear on coin. An eagerly sought pattern **2450.00**
J-272, GEM PROOF, Copper, R-6, 1860 Half Eagle. A beautiful pattern with liberty wearing a cap with 3 stars; reverse, small eagle with raised wings. This reverse design is seen only on J-271, 272, and 283. Seldom offered, superb surfaces with deep original toning at a reasonable **2700.00**
J-299, GEM PROOF, Bronze, R-1, 1863 One Cent. The regular dies without "L" on ribbon. Superb frosted gem with dies alligned straight up. Free of carbon, lightly toned **775.00**
J-347, GEM PROOF, Aluminum, R-7, 1863 Seated Dollar. The regular obverse die, with adopted reverse die of 1866 "with motto". Immaculate lightly toned surfaces. Remarkable planchet for an aluminum coin. A good investment at **2900.00**
J-375, GEM PROOF, Copper, R-7, 1864 Trime. The regular dies trial for the 1864 three-cent silver. Pristine **550.00**

Patterns (cont.)

J-381, GEM PROOF, Copper, R-7, 1864 Dime. The regular dies trial. Several minor carbon spots. A very popular pattern, as the regular issue in silver is very scarce. Reasonable at.....**450.00**

J-409, GEM PROOF, Copper-Nickel, R-7, 1865 Two Cent. The regular die trials in copper nickel. Scarce. Only **550.00**

J-417, GEM PROOF, Copper, R-6, 1865 Shield Nickel with rays. Similar to the adopted design of 1866, but dated 1865. The reverse is the "with rays" design of 1866-67, and includes the center dot characteristic of the proof dies. A beautiful coin; it is almost too bad the nickel couldn't have been struck in copper as the design is much better suited to this metal. What is an 1865 shield nickel worth? What would a 1937 Jefferson bring?? This coin is a bargain at **950.00**

J-486, GEM PROOF, Nickel, R-6, 1866 "5 Cents". The importance of this coin cannot be overemphasized, as this is the extremely popular and scarce Lincoln head nickel! Despite the R-6 rating, there are less than ten pieces known. This coin was struck in the first year following Lincoln's death. One can only wonder what a Kennedy half dollar would bring if there were only ten known. The only numismatic reference to Lincoln in the nineteenth century! (The pattern $3 gold with Lincoln on the obverse is not a mint product). Historically, numismatically, or investment wise, what pattern coin could be more desirable? This coin catalogued at $2,000 in 1968, and one can only speculate on its real worth today. We have the coin priced very reasonably at.....**6500.00**
J-489, GEM PROOF, Nickel, R-6, 1866 Five Cents. Somewhat similar to the adopted design. Highly unusual reverse, with "dutch 5" amidst a symmetrical wreath. Another sparkling gem .

J-507, Ch. PROOF, Nickel, R-6, 1866 Five Cents. The regular obverse die of 1866, the reverse of 1867 (no rays). This coin cataloged $1250—in 1968—now only $400. Another J-507, but a superb gem, reasonable at.....**1900.00**

J-615, GEM PROOF, Nickel, R-5, 1868 3 cent. Extremely broad obverse edge, similar to adopted design, but not identical. Reverse wreath similar to adopted flying eagle cent reverse. Exceptionally nice 3 cent nickel pattern.....**525.00**
J-684, Ch. PROOF, Nickel, R-4, 1869 five cent. Head of liberty wearing coronet with star, reverse large "V" surrounded by laurel wreath. Popular **400.00**
J-705, GEM PROOF, Copper, R-6, 1869 dime. Liberty wearing diadem, reverse has "10 cents" in wreath. One of the standard silver issues.....**350.00**
J-707, GEM PROOF, Aluminum, R-6, 1869 dime. As above but in aluminum.....**325.00**
J-708, GEM PROOF, Silver, R-5, 1869 dime. Head of Liberty wearing a coronet with one star. Standard silver reverse. Superb toning only **350.00**
J-738, GEM PROOF, Aluminum, R-6, 1869 quarter dollar. Design as with J-708, standard silver reverse **350.00**
J-756, GEM PROOF, Copper, R-5, 1869 half dollar. Deeply toned. Exceptionally nice surfaces. The collector who assembled these patterns was very quality conscious. As the planchets are free of the flaws usually seen and the carbon spots are minimal to nonexistent. This coin is another example of this collector's discriminating efforts **775.00**
J-772, Ch. PROOF, Copper, R-7, 1869 three dollar gold . . .**2950.00**
J-817, GEM PROOF, Copper, R-6, 1870 half dime. The Barber Seated Liberty design. regular die reverse **550.00**

J-859, GEM PROOF, Aluminum, R-6, 1870 dime. As above, but in aluminum. Reasonable at **275.00**
J-863, GEM PROOF, Copper, R-6, 1870 dime. Liberty wearing diadem, ribbon encircling hair, "In God We Trust" on scroll below. "Standard silver" reverse **450.00**
J-865.....**300.00**
J-890, GEM PROOF, Copper, R-6, 1870 quarter dollar. Head of liberty wearing cap with three stars, reverse has wreath of cotton and corn surrounding "25 cents 1870". "Standard" above . .**425.00**
J-900, Ch. PROOF, Silver, R-6, 1870 quarter dollar. Liberty wearing coronet with one star, reverse as above **395.00**
J-901, GEM PROOF, Silver, R-6, 1870 quarter dollar. Exquisite iridescent toning. Liberty wearing coronet, inscribed "Liberty" in raised letters. Reverse as above **495.00**
J-940, GEM PROOF, Silver, R-6, 1870 half dollar. Perhaps the most attractively toned coin in this entire offering. Liberty wearing cap with 2 stars, "standard" reverse **525.00**
J-942, GEM PROOF.....**495.00**
J-960, GEM PROOF.....**450.00**

J-1002, PROOF, Silver, R-7, 1870 silver dollar. One of the most attractive of all dollar patterns. With Barber's Seated Liberty mated with the regular die reverse. A great rarity at **3200.00**
J-1008, Ch. PROOF, Silver, R-7, 1870 dollar. The Longacre design with liberty wearing headdress and seated on a rock. A famous and much sought obverse design. Reverse has "1 dollar" in wreath. "Standard" above for **3300.00**
J-1053, GEM PROOF, Nickel, R-6, 1871 five cents. Similar to three-cent nickel obverse, reverse "5 cents" in laurel wreath. Richly toned **575.00**
J-1078, GEM PROOF, Copper, R-7, 1871 dime. The "no stars" Longacre design. Reverse the regular die. Very attractive only . .
.....**695.00**

J-1127, Ch. PROOF, Silver, R-7, 1871 dollar. Again the beautiful Longacre Indian Princess obverse, plainfield, reverse is the regular "with motto" seated dollar reverse. An extremely rare pattern, as the R-7 rating indicates at only . . .**3750.00**

Patterns (cont.)

J-1147, GEM PROOF, Copper, R-7, 1871 dollar. Longacre design, starred field, regular die reverse. Beautifully toned **1850.00**

J-1204, GEM PROOF, Aluminum, believed to be R-7, 1872 half dollar. A regular dies trial coin: Superb quality for an aluminum pattern only **975.00**

J-1281, GEM PROOF, Silver, R-5, 1873 trade dollar. One of the Bailly designs, and as with his liberty seated design, highly unusual. Head of liberty crowned with leaves, hair braided and coiled behind. Reverse has eagle with spread wings, supporting shield. One look at the expression on liberty's face shows why this design was rejected. This coin was supposed to circulate outside the U.S., but would not have left a very good impression on our foreign friends, as liberty has the sourest expression imaginable. The coin itself is beautiful, with immaculate fields and superbly frosted devices. A good buy at **2900.00**

J-1315, GEM PROOF, Silver, R-5, 1873 trade dollar. Again, the work of Bailly, and while we don't want to ridicule the man, we really don't think he knew what he was doing. This is the liberty seated design, but if liberty should stand up, her legs would make up 75% of her height. This is still a very popular coin and always sells quickly (this is the 4th specimen we have handled). Reasonable at **3350.00**

J-1356, GEM PROOF, Aluminum, R-6, 1874 twenty-cent piece. Bailly obverse, reverse similar to adopted design **1,475.00**

J-1390, GEM PROOF, Copper, R-7, 1875 dime. Regular dies trial piece **550.00**

J-1396 Ch. PROOF, Silver, R-6, 1875 twenty-cent piece. Bailly's seashore design, reverse 1/5 of a dollar.....**1,550.00**

J-1414, Ch. PROOF, Copper, R-6, 1875 twenty-cent piece. Regular dies trail piece **1,175.00**

J-1483, GEM PROOF, Aluminum Gilt, R-7, 1876 three-dollar gold. ANASC #7577 Regular dies trail piece struck in aluminum and gilted, as is often seen on gold piece trails struck in base metals **4,950.00**

J-1554 Ch. PROOF, Silver, R-5, 1878 dollar. Designed by William Barber; E Pluribus Unum in small Gothic letters on reverse .....
.....**3,150.00**

J-1554, GEM PROOF, A superb gem with frosted devices on reverse. Also this coin is from a different die than the one described above.....**3,950.00**

J-1556A, PROOF, Struck in white metal unlisted in Judd. No other specimens are known making this piece unique. As with all white metal coins, this piece has a slightly rough appearance, but it is still very nice. A once in a lifetime opportunity to buy a unique U.S. coin reasonably **3,950.00**

J-1584, GEM PROOF, Silver, R-7, 1879 dime. The famed "Wash Lady" design by C. E. Barber, and one of the most sought of all patterns. This specimen is the ultimate in quality. A perfect frosted proof just starting to tone. Many years ago, when patterns were going unappreciated, the washlady patterns sold quickly at prices well over catalog. Don't hesitate on this beautiful pattern at **2400.00**

J-1590, GEM PROOF, Silver, R-7, 1879 quarter dollar. Another of the beautiful "Wash Lady" designs. This is a superb frosted gem just beginning to tone. We sold one immediately from our last ad. This one is, if anything, nicer **3300.00**

J-1591, GEM PROOF, Copper, R-7, 1879 quarter dollar. The "Wash Lady" quarter, as above, but in copper. A superb coin of the ultimate beauty for only **2600.00**

J-1597, GEM PROOF, R-7, 1879 Washlady half. Superb condition **8900.00**

J-1604, GEM PROOF, Copper, R-6, 1879 dollar. Again, the beautiful "Wash Lady" design. Superb surfaces and color. A gem in all respects, and rarely offered **4900.00**

J-1608, GEM PROOF, Silver R-7, 1879 dollar. The Morgan "schoolgirl" design and considered by many to be the most beautiful coin ever struck. A simple design, but flawlessly conceived and executed. The young head of liberty with hair brushed smoothly back and tied with ribbon, band inscribed "Liberty" across top of head; reverse design has defiant eagle standing on scroll on which "In God We Trust" is engraved. This reverse design with only slight modifications appears on the Panama Pacific quarter eagle. There are very few known (estimates range from 4 to 7) and it is almost inconceivable that any other is superior in quality to this coin. With the increasing interest in patterns and all rare coins, the investment potential of this coin is staggering. Priced reasonably at **16,500.00**

J-1615, GEM PROOF, Silver, R-7, 1879 dollar. The regular Morgan dollar obverse and a William Barber reverse which is not found on any other coin. Fully brilliant coin for **3650.00**

J-1648, Ch. PROOF, Silver [metric alloy], R-7, 1880 metric dollar. Morgan design with Liberty's hair fastened in a bun. Reverse is the metric design by Barber, as conceived by Dr. Hubbell, who pursued the adoption of this design despite decisive rejection 2 years earlier. One of the very few patterns issued in 1880 .....
.....**3900.00**

J-1669, GEM PROOF, Copper, R-6, 1881 three cent. In 1881, patterns appeared for one, three, and five cent pieces as Col. Snowden requested a "uniform" series of minor coins. The "V nickel" head, with three bars on reverse. Interesting **750.00**

J-1683, GEM PROOF, Nickel, R-8, 1882 five cents. The so-called "Blindman's Nickel" with five equally spaced bars on the edge. A Rarity 8 coin, with 2-3 known. There are so many great rarities in the pattern series that the words "Great Rarity" get a little overworked, but what else can you call a R-8 coin except a "great rarity"? Auction records on this coin are few, but impressive. The last specimen offered realized $16,000 in a Kagin auction. Through a fortunate purchase we can offer this gem at .**11,500.00**

J-1693, GEM PROOF, Nickel, R-6, 1882 five cents. The shield nickel design but without the ball above the date. Regular die reverse at only **775.00**

J-1695, GEM PROOF, Aluminum, R-7, 1882 five cents. As above, but in aluminum, and very tough to locate. A superb coin .**1100.00**

J-1714, GEM PROOF, Nickel, R-7, 1883 nickel. Head of Liberty wearing plain coronet, with "Liberty" above the regular "no cent" reverse reasonable **2500.00**

J-1747, GEM PROOF, Silver, R-5, 1885 dollar. Snowden's experimental piece, regular dies with the motto "E Pluribus Unum" lettered on the edge **5,700.00**

J-1767a, GEM PROOF, Pure nickel, R-7, 1896 one cent. Magnetic. C. E. Barber's Shield & Scroll design **1450.00**

J-1768, GEM PROOF, Bronze, R-5, 1896 one cent. Same dies as above **900.00**

J-1770, GEM PROOF, Nickel, R-5, 1896 five cents. Same dies as above only with "5 Cents" placed within the wreath on the reverse.....**900.00**

J-1771a, GEM PROOF, Pure nickel, R-7, 1896 five cents. Magnetic. Barber's design struck in pure nickel then copper plated at the mint. Interesting.....**1200.00**

J-1772. GEM PROOF, Aluminum, R-6, 1896 five cents **775.00**
